

Performance Protective Solutions

A Safer Future for Students and Educators

Marketing Deck: November 1, 2025

Our Mission Is to Save Lives

By equipping schools with cutting-edge protection systems, we provide an affordable layer of defense that not only delays potential attackers but also keeps Students and Faculty safe inside their schools.

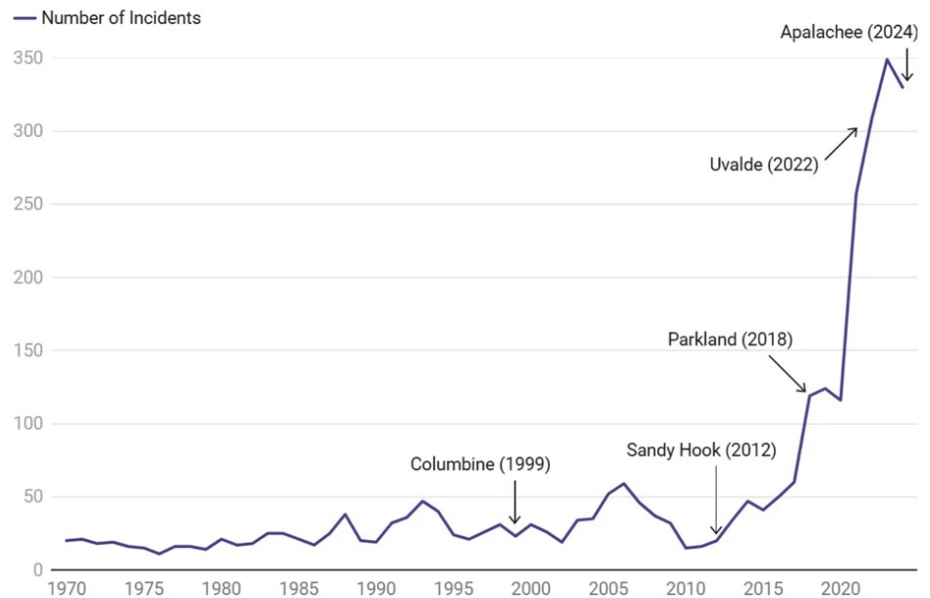

Data Shows a Worsening Crisis – Our Children Can't Wait

Data from the K-12 School Shooting Database highlights a sobering truth: fatalities inside schools occur at three times the rate of those outside. During active shooter incidents, every second matters, and the time between the onset of an attack and police intervention can mean the difference between life and tragedy.

At PPS, we are not waiting for policy changes. We are acting now to safeguard our children and educators, empowering schools with the tools they need to stay secure.

2024 saw the 2nd highest number of K-12 school shooting incidents

The 2024 count fell only 19 below the all-time high of 349 incidents recorded in 2023

Updated as of Jan. 7, 2025, at 3:30 p.m. ET. The K-12 School Shooting Database defines school shootings as any time a gun is fired or brandished with intent or when a bullet hits school property, regardless of the number of victims, time, day or reason.

How Will PPS Help Keep Your School Safe?

- Shields students and protects schools
- Provides time until help arrives
- Defends against active shooter(s)
- Deters threats inside the building

* FBI Analysis of 51 cases 11 April 2017

Average Police Response Time
3-5 Minutes*

Average Time to Neutralize a Suspect
10 Minutes *

The PPS Solution
Far Exceeds Historical
Incident Timelines

PPS Shields are Foundational to the Safety Approach

The R.A.L.S. Approach: A Proven Safety Method:

R - Recognize the threat

A - Alert the Staff

L - Lock Down the Facility

S - Stay Secured

- In Safe Spaces
- Secured by PPS Ballistic Shields (UL 8 plus)

PPS uses shields to build safe spaces and annually trains the teachers and faculty in the alert response components

Recognize the Threat

Staff member spots armed intruder on campus

Alert Staff & Police

They use their R.A.L.S alarm badge to notify others

Lock Down the Facility

The facility enters lockdown, securing students in safe spaces

Stay Secured

PPS Ballistic shields convert classrooms into saferooms

Let's Make Every School a Safe Space

PPS Protective Shields are more than a product. It's an affordable purpose-driven protection system designed to:

- Deter active threats
- Empower school staff
- Turn schools into secure safe spaces
- Deliver peace of mind—without operational headaches

Procurement Options – Tailored To Meet Your School's Specific Needs

- Infrastructure as a Service®

Procurement Options – Infrastructure as a Service®

- Package all offerings as a security service contract
- Basic Service Package covers all shields, training and maintenance
- Basic Contract is sold as a service per student for ≈ \$1.25 /day
(less than \$500 annually)
- Customizable service levels based on school size and needs

Infrastructure as a Service®

Our basic **Infrastructure as a Service®** security package is designed to create safer schools and ease the up-front capital expenditures and operational burden on schools.

The basic services package includes:

- Ballistic shields that secure doors and convert rooms into safe spaces
- Engineering drawings and permits for all installations
- Shields installed by certified contractors
- Annual training for teachers and staff to deploy shields and manage lockdown procedures
- Emergency repairs
- Semi-annual inspections, maintenance, and re-certification of shield readiness

Infrastructure as a Service®

Optional Enhancements:

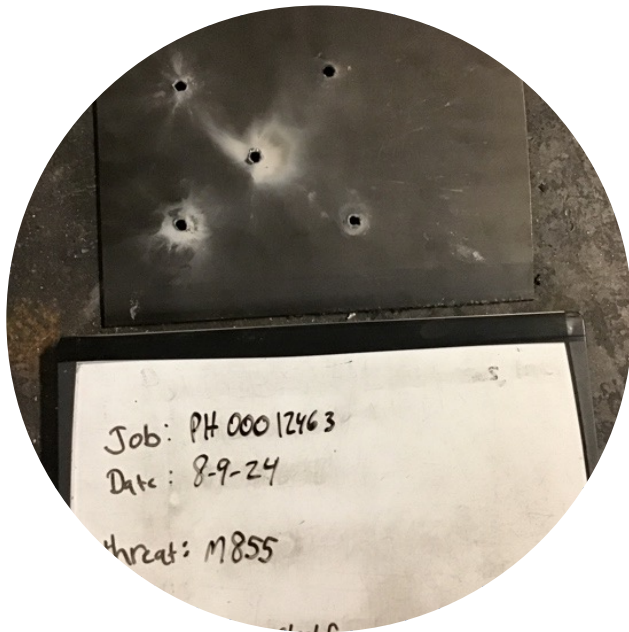

- Services
 - Expert security evaluation of deficiencies and plan development
 - On-site security personnel
 - Additional training events
 - **Active-shooter insurance coverage**
- Technology as a Service
 - Badge alert notification systems
 - Automated lockdown
 - Security cameras
 - Window films to delay forced entry
 - Ballistic glass

One call to PPS can provide the basic package and any enhancements into Infrastructure as a Service® Security offering

Ballistic Shield Capability

- Our shields exceed industry standards for ballistic resistance.
- The materials have been tested and withstand multiple rounds without penetration.
- Testing accomplished by Element Labs (**3rd Party certified ballistic testing lab**)

Tested per the UL standard, and shields against the following rifle/assault rifle calibers:

- 5.56mm Rifle Full Metal Copper Jacket with Lead Core (.223 caliber (AR-15))
- 5.56mm Rifle Full Metal Copper Jacket with Steel Core Penetrator Round (.223 caliber (AR-15))
- 7.62mm Rifle Lead Core Full Metal Copper Jacket (.308 caliber (AR-10))

Note: PPS Shields will also stop all pistol rounds

Ballistic Shields (2 Types)

Hinged

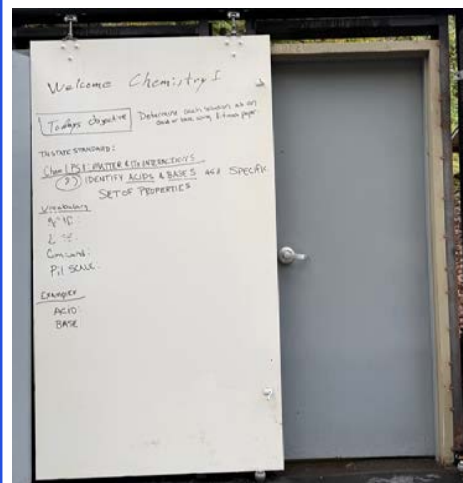

Opened

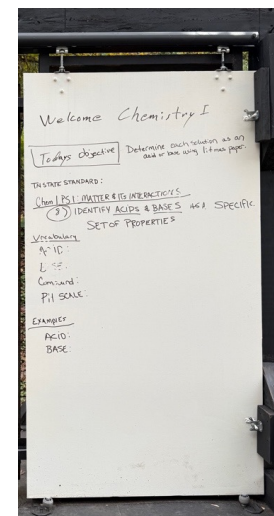

Closed

Sliding
